SUMMARY

Software Engineer with strong foundations in **Java, Spring Boot, React.js, SQL, and Full-Stack Development**. Passionate about building scalable applications, solving real-world problems, and developing efficient software solutions using modern technologies. Committed to continuous learning and leveraging software engineering principles to create impactful and innovative digital experiences

EXPERIENCE

- Web Development and Designing Intern — Oasis Infobyte** [May 2026]
- Developed **EmberCrust**, a **full-stack pizza ordering application** using React.js, Node.js, MongoDB, and Razorpay.
 - Implemented REST APIs, responsive UI, authentication, and secure online payment integration.
- Carezza Global Solutions** [June 2026]
- Learning **Core Java, JDBC, JSP, Servlets, and MySQL** through hands-on projects.
 - Developing Java applications using **OOP, REST APIs, and database connectivity**.

TECHNICAL SKILLS

Languages: Java, C++ , JavaScript, SQL
Backend: Node.js, Express.js
Frontend: React.js
Database: MySQL, MongoDB
Concepts: Data Structures & Algorithms, OOP, REST APIs, Problem solving

PROJECTS

- MediMatch – AI-Powered Healthcare & Smart Lab Platform | Full-Stack Application** GitHub : [MediMatch](#)
- Built a full-stack healthcare platform using **React.js, Node.js, MySQL, REST APIs, and WebRTC** to support medical consultations.
 - Integrated **LLM-based analysis** to generate medical report summaries and provide AI-assisted healthcare insights.
 - Designed and implemented **secure backend APIs** for patient management, appointment workflows, and data handling.
- EmberCrust – Online Pizza Ordering Application | Full-Stack Web App** GitHub : [EmberCrust](#)
- Developed a full-stack pizza ordering platform using **React.js, Node.js, MongoDB, and Razorpay** featuring **authentication**, cart, online payments, and order tracking.
 - Built REST APIs and optimized the responsive user interface for a seamless ordering experience.
- 3D Architectural Visualization Platform** GitHub : [3D ArchViz](#)
- Built a 3D architectural visualization platform using **React.js, Three.js, HTML5, CSS3, and JavaScript** with interactive walkthroughs and camera controls.
 - Designed a responsive interface with smooth animations and real-time rendering.

EDUCATION

B.E. Computer Science and Design [Aug 2023 - May 2027]
Sri Krishna College of Engineering and Technology | Coimbatore, Tamil Nadu
CGPA: 7.98

CERTIFICATIONS & ACHIEVEMENTS

- Generative AI — LinkedIn Learning [Certificate](#)
- AWS Cloud Practitioner Essentials [Certificate](#)
- Data Structures and Algorithms using Java— Infosys Springboard [Certificate](#)
